LIBERAL REPUBLICAN GENERAL COM-MITTEE.

A meeting of the Liberal Republican General Committee was held last evening at No. 1,266 Broadway, Mr. B. F. Mauierre presiding. Some routine business

GENERAL COCHRANE submitted the following resolutions, which were

Resolved. That though the liberal republicans of this segmination, after loar years devoted to the cause of independent politics, believe that of the two periods parties the democratic has proved less accessible for the legitimate indusences of public opinion than the product to the legitimate indusences of public opinion than the product voters address the most respective proceedings shall lairly answer to the country whether either for them is to be trasted for an honest administration of the government, or whether, in their failure, an independent movement of the people will not be necessary to effect it. Whereas, the lifthly enumerated principle of the Liberal Republican Convention at Cinetinant in 1872, which, among the essentials of just government, regarded "thorough reforms of the civil service as one of the pressing necessities of the hour; that honesty, capacity and fidelity constitute the only valid raim to public employment; that offices of the government rease to be matter of arbitrary favoritism and patronage, and that public station become again a post of honor," having been approved by the authority which summoned the anion republican party into national Conventions at Cincinnati in 1876, and having been affirmed by the republican party into national Conventions of the States of Indiana, Ohio, Pennsylvania, New Yors, Vermont and Connecticut, as it doubtless will be by every republican State convention responsive to the rail, therefore. ananimously adopted:-

be by every republican State convention reaponsive to the rail, therefore.

Resolved, That we avail ourselves of the occasion to conputation the teconomy on this advance made by the union republican party from the depths of administrative corruption to the firm ground of administrative reform.

Resolved, That it was a spectacle contemplated with pride when, "in the fatness of these pursy times," the Union League Club of New York city, denouncing the traud and conclust of every branch of the public service be searchingly investigated, that all corrupt practices be exposed and the betrayers of public trusts be punished.

Resolved, That the thanks of every honest and independent American citizen are due to Hon, George William Curis for the fearlessness and success with which, as the chambon of homest politics, he withstood the consorted bands of public and the services of the public set of the teathul men who united with him to resist their selfsh schemes.

The Chairman ruled the motion out of order, whereupon Mr. Rose put on his hat, and was retiring from
the room when

Genera. Cochrane moved that Mr. Rose be requested
to resums his seat. The motion was seconded and carfied una-mimously.

Mr. Rose made some explanatory remarks, which
were warmly received.

General Cochrane, by general desire, delivered a
brief address on the resolutions which had been presented and adopted. He reviewed the history of the
liberal republicans in a clear and concise manner and
showed that their predictions had, in every instance,
been fulfilled. While in divers of the Northern States
the largest portion of their numbers had dropped into
various combinations, they had successfully maintained, by wise leadership, a distinct organization in
this State and an integral existence for the last four
years. He showed that the resolutions embodied the
present sentiments entertained by the party, sufficiently broad, yet definite enough, to meet the views of
those who ranked themselves as liberal republicans.

"Honest men in office and purity of government" had
hitherto been inscribed upon the banner of the liberal
republicans, and it was determined that such would be
the motto of the party.

The corruption which pervades the republican party
most peremptorily condemns it, while the Bourbon
tendencies of the democrats, which their current actions reveal, admonish of the danger of trusting them.
The test of the sincerity of both of these parties is referred to the proceedings of their national conventions,
and wisely, too; for it is too plan to require demonitation that should these conventions respond to the
peneral craving of the people for candidates of univermity recognized probity and ability the independent
roore will be content with choosing from among them
for whom to cast his vote. But should, under the premity recognized probity and ability the independent
roor will be content with choosing from among them
for whom to cast his vote. But should, under the premity r

TAMMANY GENERAL COMMITTEE.

The regular monthly meeting of the Tammany General Committee was held in the large hall of the Wigwam last evening, Mr. Augustus Schell in the chair. It was rather a slim meeting and no business of importance was transacted. The treasurer reported 44,750 in the treasury. The committee adjourned to meet on Monday evening, May 8, after a five minutes' section.

PURE MONEY MEETING.

A card calling upon citizens to take steps looking to surrency reform was issued yesterday, in the following

In view of the present unsettled condition of the currency question, and its view also of its present great importance and prominence, we, the undersigned, regard it to be at once the right, the interest and the duty of all good citizens to band together—first, to seek the best available information upon, and, if possible, to find the true scientific sojution of said question; and, second, to disseminate such information, when lund, among the people; and thus regarding the matter, we hereby agree among ourselves to co-operate for these purposes, and we invite all others holding similar riews to join with us in the undertaking. A preliminary meeting for the organization of a national pure money league will be heid in the chapet in the New York University on Wednesday, the 12th inst.

To it were appointed the following names:—

SUFFOLK AND QUEENS COUNTIES.

Full returns from Suffolk county show that the following Supervisors have been elected :-

Babylon, Charles T. Duryea, democrat; Huntington, Stephen Rogers, democrat; Riverhead, James E. Wells, republican; Southold, Henry A. Reeve, democrat; republican; Southold, Henry A. Reeve, democrat; Southampton, Willism R. Post, republican; Smith-town, L. Bescher Smith, democrat; Islip, John Wood, union; Brookhaven, Charles S. Harris, democrat. Amended returns from Queens county show a demo-cratic gain of one in the Board of Supervisors, which numbers six democrats and only one republican, as

Ioilows:

Long Island City, James Bradley, democrat; New-town, Robert Burroughs, democrat; Jammica, John H. Brinckerhoff, democrat; Hempstead, Ebenezer Kellum, democrat; Flushing, Edward A. Lawrence, democrat (gain); North Hempstead, Samuel Wilets, republican; Oyster Bay, George S. Downing, democrat.

JERSEY CITY ELECTION RIOTS.

Patrick J. Condon, the Chairman of the Democratic Convention in the Second district of Jersey City, who was so savagely beaten on Wednesday morning, lies in a precarious condition. The four assailants, Timothy Sough, Michael O'Grady, John Campbell and Michael Ratchford, have been arrested and held for examina-tion. James Burke, a candidate for Justice of the Peace, is also suffering from the injuries he received at the same convention. Warrants have been issued to parties engaged in similar acts at the Democratic Con-vestion in the Fourth district.

JERSEY CITY MAYORALTY.

Next Monday is the day fixed for the municipal elecion in Jersey City. Mr. Orestes Cleveland was nomisated by the democrats on Monday for Mayor, but on the following day the Legislature passed Mr. Car-scallen's bill, which continues the present Mayor in office till the 1st of December. The friends of Mayor raphagen are jubilant, though Mr. Cleveland is deternined to go to the poils, and it is even stated that he will seize the rems of bower on the lst of May and disrecard the new law entirely. Mayor Traphagen, nowever, will take his stand unser the law, and in consequence serious complications may arise. A meeting of democrats has been called for to-morrow evening to consider the situation.

AMERICAN CHEMICAL SOCIETY.

In response to a call issued over the signatures of a number of prominent chemists of this city and vicinity number of gentlemen assembled last night in the bility of forming an American Chemical Society. The want of such an organization, it appears, has been deplored by members and students of the medical procession, as well as by gentiemen engaged in manufactures involving chemical principles, and it was thought that the formation of the proposed body would conduce to the establishment of a more intimate social connection among them, and might aubserve the interests of all concerned. At first a proposition was mooted to postpoke the organization of a society, and to seek the ends sought after by turning the weight of the assembled gentlemen's influence to the New York Academy of Science. After considerable deliberation, however, the original plan was adopted, and the society was organized under the hame of the American Chemical Society Mr. Charles F. Chanlet presided during the meeting, and under his direction a constiulity of forming an American Chemical Society. The

A NATIVE OF SIERRA LEONE GIVES THE AC-COUNT OF SOME OF HIS TRAVELS UP THE

WESTERN AFRICA.

Methodist Episcopal (colored) church, No. 214 Suflivan street, last evening, on the subject of the Western Coast of Africa, by Mr. J. C. Hazeley. Mr. Hazeley was born in the English settlement of Sierra Leone, and came to this country only a month ago for the principal cities of the United States. He has travelled to no little extent with Selim Age, the Egyptian trav-

and came to this country only a month ago for the purpose of giving a course of lectures throughout the principal cities of the United States. He has travelled to no little extent with Solim Aga, the Egyptian traveller, besides having made numerous journeys into the interior of Africa on his own account, and, although not what would be called a fluent speaker of the English language, made his remarks sufficiently interesting to hold his hearers in close attention from beginning to end.

What the speaker said referred principally to at expedition up the Cavalla River, the mouth of which is about twenty miles south of Cape Palmas. He told how, on one occasion, when he was trying to pass the town of Mebboe, a large number of the natives of that town swam out to his canoe and upset it, saying that he would not be allowed to go any further. He became apprehensive that their hostility would result seriously to him if he did not act promptly in some manner, so he immediately took out his notebook and began to write in it. Such a proceeding the natives were sorely perpiexed by, and one of them ventured to inquire his purpose for the scribbling. He replied that when he left the English commodore on the coast, that officer said to him, "I own all the waters of the earth; you may sail on them wherevery out please. If harm come to you left me know who the author of it is and I shall punish him accordingly," and added that he was now writing to the commodore to left him know what the people of Mebuch and done to him. So great was the natives superstition with regard to writing that they at once righted the travelore's canoe, gave him some additional provisions and allowed him to continue his course up the river.

The lecturer next described the manner in which cannibalism was practised upon two Mebboe boys who were captured by a hoatle tribe called the Barrawore olives. The lock he had began to work as a healthy to account of a single womas when had began done to take the unfortunate boys were cut into pieces him for the ho

to their dwellings.

The speaker gave the annual valuations of the export of the principal articles from Western Africa to Europe, as follows:—Palm oil, \$7,895,030; palm kernets, \$71,000; cam wood, \$90,000; ebony, \$30,000; ivory, \$22,400; ground nuts, \$1,500,000; ginger, \$24,000; india rubber, \$55,500; gold, \$96,000.

MOODY AND SANKEY.

As the Hippodrome revival services are drawing to close the crowds which attend are constantly augmented. At all the meetings yesterday the Madiso mented. At all the meetings yesterday the Madison avenue hall was filled almost immediately after the doors were opened. In the evening 800 tickets were given out for reserved seats immediately in front of the platform. These were filled before the main doors were opened, and a large overflow meeting was held in the Fourth avenue hall, over which Dr. S. H. Tyng, Jr., presided. At the morning service Mr. Moody spoke on the three sorts of unconverted people—those who neglect to receive Christ, those who refuse to accept and those who despise Him. He urged all to seek their soul's salvation while it is freely offered. His subject in the afternoon and evening meetings was the amazing love of Christ who gave himself to save even those who hate Him. At noon to day he will speak on intemperance.

THE FIVE POINTS MISSION.

Yesterday afternoon and evening the annual recep tion of the Five Points Mission School was held by the managers of the institution. Nearly 500 children of the day school attended. The exercises consisted of PORT OF NEW YORK, APRIL 6, 1876. songs, choruses, recitations, chants, dialogues, hand calisihenics, light gymnastics, speeches by Dexter A. and General Hawkins, and a closing address by Mr. R. and General Hawkins, and a closing address by Mr. R.
A. Brick. The performances of both children and adults commanded the applause of all the visitors. In the statements made it was shown that the average daily attendance of children is about 450, one-third of whom are boys. At the Sabbath school, however, in a department of which reading and writing is taught to such as have to work during the other days of the week, there is a sufficient additional attendance to make the whole number deriving benefit from the schools nearly 600. At the close of the exercises Superintendent Brown made an earnest request that the visitors present and the public generally would do all they could to increase the subscriptions in support of the mission.

HENRY C. BOWEN'S CASE.

Last night, Mr. Henry C. Bowen, accompanied by Dr. Ward and his sons, attended the meeting of the special committee of Plymouth church, at the house of Mr. H. L. Pratt, corner of Hicks and Orange streets, Brooklyn, and remained about two hours. What transpired could not be learned, both the Plymouth people and Mr. Bowen positively declining to give any information respecting the proceedings.

FOR CHARITY'S SAKE.

An entertainment is announced to take place or Monday evening next, at Terrace Garden, for the benefit of the five orphans of the late Mrs. Anna Hammond, who was brutally murdered in Harlem, on March 17, 1876. It is hoped that the public will show their sym-pathy for the bereaved family by a large attendance.

SCHOOL EXAMINATION

Yesterday morning the semi-annual examination and Female Grammar school No. 56, in West Eighteenth street. Over 500 pupils were present, and the large school. The board of trustees was represented by Messrs. Bird, Harrison, Castrel and Zoilskoffer. The Messra Bird, Harrison, Castrel and Zolikoder. The exercises and examination were conducted by Miss Elizabeth Loveridge, the principal, and her assistant Miss Sutton, and was highly satisfactory. At intervals the company was entertained with singing, recitations and pianotorte playing by the advanced pupils. Adverses were made by Mr. Bird, the chairman of the School Board, and Messra Armstrong and Harrison; after which certificates and prizes were avaried. Over 200 certificates were granted. Out of 549 pupils there were only thirty-seven absent.

THE CUSTOM HOUSE,

The Secretary of the Treasury has rendered his decision in the matter of the reward to be awarded in reference to the eight cases of goods seized, ex Pommerania, belonging to Lawrence, the smuggler, now in jail in this city. He awards Deputy Collector Phelps \$3,000, Deputy Surveyor Klinck, \$1,800; Detective Mooney, \$2,200, and Detective Hoylan, \$2,200.

Special Treasury Agent Colonel Moses Hale had to burn candles yesterdsy in his rooms in the Custom Rouse, and "dips" and kerosene lamps had to do service for gas in many of the divisions. The want of gas causes great inconvenience.

The tollowing circular, with reference to the transportation of bonded merchandise from New Haven, Conn., to ports of entry in the Northern, Northeastern and Northwestern frontiers of the United States, was received by Collector Arthur yesterday, and is as follows:

TREASCRY DEPARTMENT, WASSINGTON. The Secretary of the Treasury has rendered by

States, was received by Content and is as follows:

TREASURY DEPARTMENT, WASRINGTON.

New Haven, Conn., is hereby designated as a port, to and from which merchandse may pass in bond, as provided for in article their of the regulations of the department.

Article 221 of said regulations and the conditions of the bonds given by common carriers, thereander, must be carefully observed by all concerned, and no merchandise will be transported under these instructions for delivery otherwise than to the proper offices of the Customs, at two port of destination, or to some autherises connecting railroad or the transportation like or company, forming part of the established rente for such transportation.

FIRE IN BROOKLYN.

Last night a fire occurred in the hat and skirt factory of Mr. Doubleday, corner of Ninth street and Second avenue, Brooklyn, and the loss on the building is APARTMENTS FOR DOM PEDRO.

Councillor A. P. de Carvalho Borges, Brazilian Minister at Washington, has engaged apartments at the Fifth Avenue Hotel for the accommodation of the Emperor Dom Pedro and his suite during their sojourn in this city. The rooms selected are twenty in number, including the gentlemen's parlor and the requisite bath rooms and sleeping apartments. They are situated on the surface floor. the parior floor, fronting on Fifth avenue, and Twenty-third street, and comprise the finest rooms in the bouse, having the "southrooms in the bouse, having the "south-erly exposure" so much sought for by dwellers in inshionable hotels. The Brazilian Minister, in conversation with a representative of the Heralin yesterday, requested the latter to state to the public that the Emperor is decidedly opposed to anything like a public reception on his arrival here, or to a public demonstration of any kind whatever during his stay. His Majesty desires to travel simply as a private gen-tleman, avoiding all ostentation and unnecessary dis-play. Mr. Borges left the city last evening for Wash-ington and will return hither next week to await the arrival of the Emperor.
